OLIVELLA**

# Municipal Election of Olivella

26th of May 2019

**ELECTORAL  
PLATFORM**

## Jaume Carol, our candidate.

I was born in Vilafranca but I've been living in Olivella for 35 years.

I've been linked to the politics' world at the local council since 1991 and, currently, I'm part of the Government as the councillor of Olivella.

For 16 years, I'm a Regional Minister in the Garraf area, where I assume the presidency of the areas of Culture, Patrimony, Occupation, Sports and Sociocultural Revitalizing. On the last one I've got a representative role, I'm the direct responsible in many departments of different areas like: Parties, Economic Promotion, Governance, Mobility and Transport, Construction permits and Urban discipline, Social Services, Business and Labor Incorporation.

Besides, I'm vice-president of the Presidency Area, Central Services and Territory.

Once again, my co-workers, have chosen me to be candidate for mayor in Olivella. As for me, after 16 years being a councillor at the municipality, these elections will be very important and a big challenge.

During these elections, the town will have to elect between politics councillors or people who's up to be councillor under other's necessities and the goodwill of sticking together. These elections have, again, a big significance to our municipality.

## Junts per Olivella as a Group:

Junts per Olivella, appears on these elections with an alliance between Demòcrates de Catalunya and Partit Demòcrata Europeu Català. A group that is made out of independent people, who know the necessities and improvements needed to reach the objectives proposed in common.

In Junts per Olivella we are honest, see-through and close to our municipality, people who have ideas and ability to listen opinions or proposals from our neighbours. As a group, we will push ourselves in order to improve the services of the municipality so that they can reach the best quality and benefit our neighbours.

The political proposal of Junts per Olivella will be lined up to the boost of the growth of the municipality, achieving positive socio-economic profits for its development.

We will work with a view focused in people as a main road of the politics to process.

**In Junts per Olivella we are neighbours from the municipality that, from the town hall, are willing to assume the RESPONSIBILITY of:**

Being based of our own experiences and our daily intervention, we want to progress the quality of life of people. We want to build a better Olivella and to continue **STICKING TOGETHER**.

**In Junts per Olivella we are neighbours that have as a VIEW:**

Turn the town hall into a public management of services towards the people, which also benefit the growth of the municipality. We want everybody feeling proud of being from Olivella.

**In Junts per Olivella we are neighbours that, as VALUES, will provide:**

**Excellence:** High qualified knowledge and an active listening in order to be capable of ameliorate the experiences of the Olivellencs and Olivellenques.

**Wholeness:** Being held accountable form the coherence, responsibility and transparency.

**Obligation:** We will get involved, with excitement, in subjects related to the citizenry and its surroundings.

**Proactivity:** We will be forward-thinking and innovate in order to daily ameliorate in everything that we do.

**Cooperation** ☑ Our relationships will be based on confidence, cooperation and respect.

## Governing Actions:

-  In order to face the decision making, highly important for the municipality and its citizenry, we will drive an active democracy.
-  In order to guarantee an active listening, a better Olivella from different points of view, we commit to do quarterly meetings with diverse organizations and associations. As well, we will conduct an annual hearing, open to the citizens, in order to explain the state of our plan.
-  We will change the Municipal Organic Rules in order to favour a bigger citizen participation inside the plenary seasons: right to proposal and oral intervention.
-  In order to realize the wording of budgets, in items destined to inversions or improvements, we will realize open discussions where the people will participate and make a decision though voting in an open and see-through process.
-  We will do an economic management that preserves public resources and handles the local economy. Its goal will be offering local public services and giving response to the mandate's objectives.
-  We will study and word in order to introduce a better district attorney of the municipal duties applicating, in some instances, tax discounts.
-  We will look over all the actual processes done at the town hall. We will adjust them, improve them or even to do new ones in order to guarantee the best quality in all we do for the citizens and the municipality. If it's necessary, improvements in the digital setting.
-  We will work transversely with all the departments of the municipality, in order to obtain an ensemble vision and to plan the challenges we want to achieve. Moreover, we will pay attention to the subsidies or aids coming from other administrations.
-  The political agreement will be elementary in order to confront future challenges that we could considerate. We will be open to work with other groups in order to benefit our neighbours.
-  We will improve communication with our citizens through our website and social networks. The information will be fluid and transparent. Likewise, we will make the City Council Website, an improvement that allows you to introduce instances, complaints and suggestions, in a more accessible and accessible way for everyone. We will promote this communication channel to avoid journeys to the OAC or the City Council, conducting communication campaigns and carrying out workshops open to all neighbors, to adapt to new technologies.

 We acknowledge the necessity of expanding the schedule of the post office at the municipality. We promise having a reunion with the territorial responsible of Correos in order to ameliorate the service searching for possible solutions.

## Economic Actions:

 Economy is one of the key success factors that can face, nearly all, the contemplative future challenges of any municipality. So, that's why the town hall, as the central motor, will do local politics equal to our neighbours. Furthermore, other economic alternatives in other administrations (County Council, Council i/o Generalitat) will be used for Olivella's economic growth.

 Employment plans (for people from the municipality with risk of exclusion, young people and people with long duration unemployment) will be straightened by conventions with the Service of Occupation of Catalonia and the County Council.

 From the administration we will work with entities, associations and shopkeepers in order to generate a circular economy in the municipality. We will search socioeconomic development formulas and promote periodic actions that strengthen the local commerce.

 We will search formulas in order to share services with other nearby municipalities, fact that could help reducing economic losses.

 In order to encourage openings of new commercial establishments in the municipality, we will be creative searching for new formulas that could help since moment one, such as: discounts of the 50% in the cost of via waste charges and a 50% for the construction permit.

 In order to encourage the economy, we offer realizing a touristic planning for Olivella (according to our geo-localization and taking advantage of our entourage) where lasts worded the wealth of our municipality. Also, we will search formulas as the ones of sportive activities and leisure that can be realized.

 We will have to adapt the actual regulations and to support the Street Market boosting new attractive and innovative commerce formulas, such as the Car Boot Sale (a proposal from our neighbours), the secondhand market or the exchange market.

 We promise the full involvement with entities, associations and enterprises that strengthen the municipality by doing festivals, movements, activities and fairs.

## Social and Community Actions:

-  For the next four years we suggest to highlight the proximity with our neighbours, as well as the participation of different associations and entities of the municipality. We commit to give support from the town hall in order to realize social activities, for the purpose of guarantee its growth.
-  We want to consolidate the identity of our municipality in order to promote it to the abroad.
-  Our objective for the equipment plan and its assignation is to improve the channel of communication for requests in order to use them publicly, even if its paperwork it's private.
-  In terms of cultural activities we will do a permanent annual calendar where there will be the proposals of the town that the associations and entities will try developing.
-  We will increment the collaboration of other municipalities in cultural activities and festivities by the associations and entities of Olivella.
-  We think that the older ones are necessary in the different activities realized, as they've always been an example to follow for Olivella. That's why we want to create an appropriate area, with an ideal state of maintenance, for them.
-  We want Olivella to be a municipality where there isn't discrimination towards any collective, either the women's one or others. For this reason, we will give support to the existing proposals and to the actions of the associations.
-  We will create and indicate a WI-FI zone in the equipment and spaces of the municipality.
-  We will facilitate a space for the youngest because we think that its implication on the social development of the municipality is very important.
-  We will work on the proposal of the youngest citizens in order to be able to install an initiation to the Skate floor. We think of doing it at the Municipal zone of equipment of "El Ganxo".
-  We will introduce the Day of the International Culture of Olivella in the activities of the municipality in order to enjoy our foreign neighbours' practices and traditions.
-  We will ask for an enlargement of the school "El Morsell" to Teaching Department in order to have access to Obligatory Secondary Education in our municipality, without having to drive around Sant Pere de Ribes. We will improve our children's quality of life.

-  The town hall will help in the actions, activities and proposals driven by the AFA from the Department of Education. Also, the decisions (voted) planned by the AFA will be supported.
-  The sportive activity of our municipality has grown becoming a space of social cohesion and inter-generational relationship. For this reason, from the town hall, we will give support to the different clubs and entities related to the sportive practice, in order to make public their activities.
-  We see sport as a good way to work the social inclusion of young people who have the risk of social exclusion. That's the reason why, from the town hall, we will collaborate with entities, associations or clubs in order to facilitate the incorporation in the sports field.
-  In the social politics, we propose the improvement and adequacy of the home-care service and the home-telecare service, incorporating new devices in order to guarantee the security and coverage of the basic needs.
-  From the administration we will give more dissemination and visibility to the centre of the Red Cross and its labour. The objective is that the neighbours are aware of the center necessities so they can do contributions. We will encourage the citizens' participation and we will do campaigns of food, toy, clothing collection... In addition, we will jointly analyze the running of the space and generate processes of reception and loans of technical aids.
-  The town hall will realize a regular control of the unoccupied houses in order to do a proposition about the housing plan. Like that, it can last regulated for the people that could need it. Moreover, the regulation will be studied by an intern protocol with Mossos d'Esquadra, banking institutions and supply companies for the illegal occupation of houses.
-  We will request to expand the opening hours of the CAP of Olivella at the Health Department of Generalitat. We will try to incorporate two days of opening during the evenings and giving loan to a family doctor and a pediatrician.
-  Olivella has to be a municipality with cardiac protected areas, that's the reason we propose the continuity of the installation of defibrillators at strategic zones of the municipality.
-  We will adapt a recreation area equipped with a picnic area, to enjoy of our surroundings. We will interrelation nature and sportive practice in order to achieve a space for the cohesion between the citizens of the municipality.

## Mobility, Security and Citizenship Actions:

-  We will request the synthesis in order to give more visibility to the municipality from the nearest roads in the Council and the Generalitat. In addition, by the town hall, we will renovate the informative signaling of the municipality.
-  We will continue working on the amelioration of the horizontal and vertical signaling of the municipality in order to guarantee a better intern mobilization on road safety.
-  We will realize civic movements and awareness for the cleaning-up campaigns for the forest preservation. The first action realized will be putting informative signals inside parks and waste containers' zone.
-  We will analyze a study, realized by the Association of Municipalities of Urban Transport, of the different routes of Public Transport and its use. By doing that, we will try to find the biggest effectiveness.
-  We will improve the stands for the citizens, by doing that, they will be able to have the information of the different schedules. Moreover, we will realize other improvement measures like the vertical signalization all the stands.
-  We will set the Taxi's regulation in order to increase in two new licenses, one of them is the one of fully adapted vehicles for the disabled.
-  As a Government, we will promote, by the County Council, a proposal with the model of "Vinyeta" (Payment proportional to use) for highways and fast tracks in Garraf and other municipalities of Catalonia.
-  We will check out the mountain roads that connect the municipalities with other communities, in order to propose a networking improvement plan.
-  On general terms and in our municipality, road safety is very important. For that reason, we will realize awareness campaigns. Rules are for being rigorously accomplished, we can't lose on road safety terms.
-  We will recruit of the needed tools our Municipal Agents, in order to regulate the infringements at the public roads.
-  We will revise the applicable ordinances and will improve them in order to satisfy the necessities of our municipality.
-  We will establish a first educative program about road safety and civility at schools.

-  Road safety isn't only about encouraging citizens about its dangers, but also it is a responsibility that we gladly will assume. We will form a mobility technical chart in order to detect and prevent risks on road safety.
-  Not only road safety is important, but also security on general terms. For that reason, we will revise the security protocols with the Mossos of Esquadra force.
-  We will realize campaigns in order to promote the registration of cars at the municipality.
-  The most important pillars for the professional development of our agents will be: the continued training of conflict resolution, mediation, security....
-  We will streamline the implementation of a system of surveillance cameras at different accesses of our municipality. Furthermore, we will propose the application of this type of camera in some of the municipality's installations.
-  Concerning the improvement of road safety, we will transform the main street of Pl. Catalunya into a one-way street. Also, we will install there raised pedestrian passes.
-  We will also study the necessity of supplying our municipality of raised pedestrian passes in order to: reduce the velocity of vehicles, minimize the pedestrians' waiting time to cross the road, prevent the improper use of those spaces as a space for parking... In other words, in order to have a definitive element to have secure and comfortable journeys.
-  We will establish loading and unloading bays for merchandising near the commercial buildings.
-  Harsh sanctioning measures will be taken against dog owners who let them do their behavioural needs at children's park or public road. The civility ordinance will be revised and the agents will have the tools to properly adapt to them.
-  We will do awareness campaigns for pet owners, in addition to registering their animals at the municipal census.

## Maintenance and Urbanism Actions:

-  We will realize a monthly checklist about municipal areas for use by third parties in order to detect incidents and mention them later on.
-  We will program a calendar about the maintaining of public highways, appropriating its measures and development according to the detected necessities. We will always search for the best efficiency and quality.
-  We will arrange with the contracted company tasked of the maintenance of the street lighting in order to change the 25% of the actual light bulbs for LED's. Moreover, a study of lighting from different access to the municipality and streets with low lighting will be requested.
-  We will realize, with the appropriate department, a revision of the streets with a lot of wiring because they can be dangerous and break off the townscape. So, the participating companies on this maintenance will help improving and organizing this wiring.
-  From the town hall we will do a study in order to adopt renewable energies on the main streets and municipal buildings. We will also promote changes on applicable ordinances for the purpose of reinforcing renewable energies at homes.
-  We will check out the ordinance which regulates the cleaning and maintenance of private plots and the necessary changes will be adopted. The non-compliance of the owners, on the expected measures, would lead to an application of economic sanctions.
-  Our municipality is one of the municipalities with the greatest risks of fire. For that reason, with the help of firefighters and the ADF, we will realize awareness and information campaigns concerning fire prevention. Furthermore, we will encourage awareness and prevention courses at schools.
-  We will do a study in order to increase the number of recycling bins, as well as the number of trash containers. We will substitute the actual ones, we will propose a new location for them and we will expand its services. All of these actions have to be matching the mobile civic amenity site.
-  We will introduce, at the parks and squares, areas of traditional gaming with games like: the hopscotch, Noughts and Crosses, checkers and chess, Ping-Pong tables...
-  Finally, we will do a study of all the needed actions in order to break up all the urban problems. By doing so, Olivella may continue growing as a town of reference at Garraf. Once the proposal of POUM (pending approval of the Department of Urbanism of Generalitat) is adopted, we will work in order to carry out the future Olivella we all want.
